PROJECTS

1. **QR Code Generator Website using React**
   In this project I used Html, Css, Bootstrap, Js and React library to build this website. This website generates QR code for text and url links. You can also download the QR code. If you can scan that QR code, it will take you to the link which you gave the link to generate the QR code.
   Website Link: Link | **Project Link:** Link

2. **Personal Portfolio Website using React**
   Developed a responsive and dynamic personal portfolio website using HTML, CSS, Javascript,Bootstrap and React to show various projects and skills.
   Website Link: Link | **Project Link:** Link

3. **Website For My Youtube Channel using HTML and CSS**
   The simple web page created for my youtube channel. The webpage contains links to social media pages and the link for youtube channels. I used a template to create this website.
   Website Link: Link | **Project Link:** Link

SKILLS

Technical Skills:
1. Web Development:
   - **Html:** Skilled in creating semantic and accessible web pages.
   - **CSS:** Knowledgeable in styling web pages using modern CSS techniques including Flexbox and Grid.
   - **JavaScript:** Proficient in writing clean and efficient code.
   - **Bootstrap:** Experienced in using Bootstrap for responsive web design.
   - **React.js:** Familiar with building dynamic web applications using react.

2. <u>Programming Languages:</u>
   - **Java:** Solid understanding of object-oriented programming principles.
3. <u>Backend Development:</u>
   - **Spring Boot:** Basic knowledge of developing backend services.
4. <u>Database Management:</u>
   - **MySQL:** Familiar with designing and managing relational databases.
5. <u>Version Control:</u>
   - **GitHub:** Proficient in using git and Github for version control , Collaborative development and code management.

Soft Skills:
1. Basic proficiency in communication and collaboration skills.
2. Ability to work effectively in a fast-paced environment.
3. Adaptability and willingness to learn new technologies.
4. Easily adaptable to learn new technologies.
5. Good in Analysis, technical design and development.

CERTIFICATIONS

- **The complete Web Developer in 2023** - Zero to Mastery in Udemy   **Duration:** Nov 2023 - Feb 2024
  Relevant Coursework: HTML, CSS, Javascript, React and Bootstrap.
  Mode: Online

- **Full Stack Development using React & Java** - Fita Academy   **Duration:** Oct 2023 - Mar 2024
  Relevant Coursework: HTML, CSS, Javascript, React, Bootstrap, Java, Spring Boot and MySQL.
  Mode: Offline

- **Front End Development HTML** - Great Learning
  Relevant Coursework: HTML5   **Duration:** 1 Day
  Mode: Online

- **CSS Properties** - Great Learning   **Duration:** 1 Day
  Relevant Coursework: Css3 Properties
  Mode: Online

AREA OF INTEREST

- **Full-Stack Development:** Passionate about both front-end and back-end development. Skilled creating seamless user interfaces and server side logic.

- **Front-End Development:** Enjoy designing and developing responsive, user-friendly web interfaces using HTML5, CSS3, Javascript, Bootstrap and React.js.

- **Back-End Development:** Interested in building efficient and scalable server-side applications using Java and Spring Boot with strong knowledge in database management with mysql.

LANGUAGES KNOWN

- **Tamil:** Native proficiency,
- **English:** Beginner proficiency

KNOWN OS

- Windows
- Ubuntu
